

# **Jagriti- An Official Journal of Gandaki University**

## **MANUSCRIPT REVIEW FORMAT**

**Manuscript ID:**

**Title of the Manuscript:**

## **RECOMMENDATION**

Following careful assessment of the manuscript, please select the most suitable recommendation. Please provide justification and rationale which led to the decision in the “Comments” section below.

- Accept as it is
- Requires minor revision
- Requires moderate revision
- Requires major revision
- Not suitable for journal: Submit to another journal
- Reject

## **CHECKLIST**

1. Are the aims and objectives clearly mentioned in the manuscript?
  - Yes
  - No
  - Not applicable
2. Is the knowledge gap clearly identified to provide justification for the requirement of the study?
  - Yes
  - No
  - Not applicable
3. Are the statistical methods valid and correctly applied?
  - Yes
  - No
  - Not applicable
4. Are the figures and tables clear?
  - Yes
  - No
  - Not applicable
5. Do the figures and tables represent the information relevant to the study aims/objectives?

## **Jagriti- An Official Journal of Gandaki University**

- Yes
  - No
  - Not applicable
6. Are the results and conclusions backed up by the obtained results?
- Yes
  - No
  - Not applicable
7. Is the statement regarding approval from Ethics Committee mentioned in the manuscript?
- Yes
  - No
  - Not applicable
8. Does the reference list cover the relevant literature adequately and in an unbiased manner?
- Yes
  - No
  - Not applicable

### **QUALITY ASSESSMENT**

Please select a suitable response for the following quality assessment questions relevant to the manuscript (1-Poor, 2-Acceptable, 3-Good, 4-Very Good, 5-Excellent).

1. Scientific rigor
- 1
  - 2
  - 3
  - 4
  - 5
2. Logicality of the manuscript flow
- 1
  - 2
  - 3
  - 4
  - 5
3. Interest to the scientific community
- 1
  - 2

- 5

## COMMENTS

Please provide comprehensive comments to back up your recommendation for the reviewed manuscript. Please provide feedback on individual sections (e.g., Introduction: Is the background information sufficient and the research gap justified?; Methodology: Are the methods accurate, detailed, logical, and reproducible?; Results: Are the results novel, appropriately analyzed, and contribute to the advancement of understanding?; Discussion: Is it well written and sufficiently support and justify the results?

*Important:* If you have comments that you want to communicate directly and confidentially to the Editor, please mention only in the “Confidential comments to the Editor” section.
